According to Dr. L. Mason, Vice-President of the American Society for the Study of Inebriety, Alcohol and Drug Neorosis, the habit of a too copious use of water, externally or internally, is very dangerous. He describes it as "Dangerous as over-indulgence in alcohol." Dr. Mason further says:

"I have a friend who is a victim of aquamania; he spends hours in a bath-tub and drinks so much water that he has reduced the solids of his body and worked serious injury to himself. Many men and women drink too much water and are victims of that form of intoxication."

Moral: Drink Lemp's Beer. It is the right kind of beer, properly aged before being placed on the market—a food and a tonic. Once you test it for yourself, you will invariably call for a bottle of Lemp's Beer at your club, restaurant or hotel and instruct your licensed grocer or dealer to supply none but Lemp's for home use. Trade Organizations Succeed in Collecting Two Millions and a Half Towards Meeting Its Expenses

## RAILWAYS GIVE SUBSTANTIAL FUNDS

Dominion Government and City of Winnipeg Expected to Contribute Five Million Dollars Between Them

TORONTO, June 27.—Ed Martin, president of the Winnipeg Board of Trade, is in the city conferring with others for the purpose of securing better freight rates for the west, both for the farmer and manufacturer. Mr. Martin, who is a brother of Joseph Martin, M.P. for East St. Paul, London, states that trade organizations have succeeded in collecting \$2,500,000 for the big world's fair to be held there in 1914. Of this amount the G.T.P. has donated \$500,000, the C.P.R. \$500,000, and the C.N.R. \$250,000. Sir Wilfrid Laurier will shortly make a tour of the west, and while in Winnipeg, he will, it is understood, inform the city that the Dominion will give dollar for dollar to advertise the exhibition, the greatest the world has ever seen. This will mean that the Government and the city will expend \$5,000,000 between them.

**Prussian Ministers.**  
BERLIN, June 27.—The Kreuz Zeitung says that Baron von Rhein-baden, the Prussian minister of State and Finance, has resigned. The paper says that he will probably be appointed prefect of the Rhine province. The Frankfurt Zeitung and other papers report that Herr von Schoen will retire soon from the foreign office, and will accept an appointment at a foreign embassy. He is successor to Herr von Kiderling-Wachter, now minister to Russia.

**To Sign Treaty**  
WASHINGTON, June 27.—Ambassador Bryce will journey to Washington from the summer home of the British embassy in New Hampshire this week for the purely ministerial function of signing the Rhine province. Knox in the signing of a treaty providing for the adjustment of certain pecuniary claims of citizens of the United States or Great Britain against each other. These may be regarded as "leftover claims," that is, those which were not included in other conventions and arbitrations during the past century. No one knows the sum total involved, though it cannot be considerable.

**His Automobile Strikes Italian Laborer and Latter Is Likely to Die—Accident Changes Plans**  
BEVERLY, Mass., June 27.—The serious condition of Aischel Thisth-willa, the Italian laborer who was struck today by an automobile operated by Robert Taft, the President's son, has caused a hurried change in the plans of the Taft family, who were preparing to depart for New London tomorrow to attend the Harvard-Yale regatta. Instead of attending the races, the family will remain in Beverly unless there is an unexpected change for the better in the man's condition. The report from the Beverly hospital tonight was that he has only a slight chance of recovery. Dr. S. J. Mixer, of Boston, sent at

the request of the President, arrived here late this afternoon, and he is working with the hospital authorities, doing all that is to be done for the injured man.

Robert Taft was badly broken up over the affair, and spent much of his time this afternoon at the hospital. Chief of Police W. A. Ferguson has received instructions through the President's attorneys to see that the injured man is given every possible care and attention until his arrival, when he will take care of the matter himself. Robert has been in conference with the chief several times and refused to go out in the automobile again today. Secretary King, of the Board of Trade, received word from the President's secretary today that the President would arrive in Beverly early Wednesday morning.

LONDON, June 27.—It is learned that an exodus of natives of Finland to Canada is probable at an early date. The Dominion Government, it is understood, is prepared to afford them facilities to settle in the Hudson's Bay region.

**Finds No Corruption.**  
WASHINGTON, June 27.—After three months of hearings the House committee to investigate charges reflecting on members of congress in connection with ship subsidy legislation, closed its Washington sessions today with an unofficial announcement to counsel that it had found no corruption on the part of any members of congress. The newspaper editors, J. A. O'Mahoney, of Indianapolis, and J. A. Shaw, editor of the Texas Farmer, testified today that they believed there was a lobby here, but neither produced any definite details.

## MEAT DEALERS DEFRAUD PUBLIC

Investigation in New York Shows Wooden Spreaders Are Paid for As Meat—Short Weight in Hame

NEW YORK, June 27.—W. H. Noyes, a representative of Swift & Co., testified at a hearing at the city hall today that in 1909 the New York public paid \$28,000 for 225,000 pounds of wood spreaders in its meat.

Retail and wholesale butchers alike gathered at the hearing today to give their side of the case. The city authorities have been trying to remedy short weights for several weeks, and first hand information is sought.

Hams and bacon weighed before the assembly today showed that the public is fooled. A ham, including heavy paper wrapping, marked 13 1-4 pounds, tipped the scales at only 12 pounds 14 ounces. Another marked 10 1-2 pounds weighed 9 pounds 7 ounces. Similar shrinkage was shown in bacon.

**Salvation Army Officers**  
WINNIPEG, June 27.—Capt. Gamble and Staff Capt. Jennings, officers in charge of the immigration department of the Salvation Army in the eastern provinces, left for the West last evening. They will go as far as Vancouver and their business will be the investigation of the labor field in the West.

**U.S. Expenditure**  
WASHINGTON, June 27.—Separate statements were made by Chairman Tawney, Republican, and Representative Livingston, of Georgia, ranking Democrat member of the committee, analyzing the figures of the appropriation bill from the standpoints of the two parties. Mr. Tawney contended that a reduction of \$28,529,821 over the last session of the sixtieth congress had been achieved. He declared that the administration had rendered congress material aid in reducing expenses, and that a wholesome balance between revenues and expenditures had been restored and that prospects indicated that the government receipts for the fiscal year 1911 would exceed the authorized appropriations by \$11,937,812.

## TOWNS CAPTURED BY REVOLUTIONISTS

Several Positions in Nicaragua Taken From Forces of Madriz Government—More Fighting Expected

SAN JUAN DEL SUR, Nicaragua, June 27.—According to reports reaching here, the town of Acayapa, in the department of Chontales, has been captured by the revolutionists.

The announcement also is made that the port of San Ubaldo on Lake Nicaragua has fallen into the hands of General Menz's men. The government has sent a strong force to reoccupy the towns.

Special telegraphic instructions have been forwarded to the governors of the various departments to give particular attention to the protection of foreign interests in order to avoid the slightest pretext for complaint. A forced loan of about \$220,000 has been levied.

Despatches from Bluefields yesterday announced the capture by the provisional forces of San Ubaldo, La Libertad and Juigalpa, all important towns in the department of Chontales. The town of Acayapa was at the time held by General Valquez, one of the commanders of the Nicaraguan army, with 400 men.

Eight Successful Flights Made in Aeroplanes of Various Kinds—Wright Machines Are Most Successful

## DAY OF BAD LUCK FOR MR. McCURDY

Crowd at Aviation Field Has Fright Through Drigible Balloon Breaking Away From Young Aeronaut

MONTREAL, June 27.—Eight successful flights were made by heavier-than-air machines at the aviation park this afternoon, the feature of the day's performance being the fine work of the Wright bi-planes. Four of these machines are here for the meet, and each of the four was in the air today for periods varying five to thirty-five minutes.

The longest flight was made by Ralph Johnston, the ex-trick bicycle rider, who went up in his Wright machine late in the afternoon and went through an amazing series of tricks which demonstrated the perfect mechanism of the bi-plane and the splendid control of the man at the steering wheel. Johnston was up for thirty-five minutes, soared to a high altitude, came down again, dipped his machine, made quick turns and rocked his machine from side to side in a way that recalled his handling of a bicycle. The Wright machine carried off the honors of the day with the greatest altitude flight, the longest flight and the fastest flight.

Walter Brookens made a preliminary try at his own world's record for altitude. He went up steadily for twenty minutes, and claimed he reached a height of thirty-five hundred feet, according to readings of an instrument on his bi-plane. However, the official measurement was only 1,650. Brookens floated out over Lake St. Louis and then returned and landed in front of the stand.

Lachapelle, also in a Wright forty horsepower machine, made the fastest flight, clearing the course twice in three minutes twenty-nine seconds, the total distance being approximately 12,100 feet. De Lesseps, in his light Blériot monoplane, a less powerful machine than the one he will use later on in the meet, did the same two turns of the course in 4.35. The course was less in the limit light than on the opening day, but made two very successful flights during the afternoon. Two of his machines arrived only today. The one has so far been working with a new machine which he ordered just before he left France, and he expects with (Continued on Page 2.)

**FISHERIES CLAIM OF UNITED STATES**  
LONDON, June 27.—A dispatch from The Hague says: The greater part of former Senator Turner's plea before the fisheries tribunal on behalf of the United States has been confined to endeavoring to support by an appeal to a portentous list of authorities a line of argument in favor of the theory of limitation of sovereignty, namely, that the rights of the United States under the treaty of 1818 form an international servitude analogous in some degree to those which commonly existed among the old German states, and which were subject to one great complexity.

It may be said that the United States contends that the existence of this servitude over Newfoundland limits Great Britain's sovereignty to that extent, with the result that not only is Great Britain prevented from exercising her sovereignty so as to make regulations which would impair the fishing rights of the United States, but the United States is entitled to exercise sovereignty over its own fishing rights in the territories in question.

The United States claims not only the right to concur in fishing regulations, and reject any detrimental American citizens, but to insist upon as full a participation in the method of their enforcement as that to be exercised by Great Britain herself.

## COMMISSIONERS TO LEAVE FOR EAST

The members of the University Site Commission, who returned from their visit to Prince Rupert on Saturday last, yesterday morning left a private sitting at the provincial buildings, classifying and arranging data collected during their travels, and later had short interviews with Hon. Dr. Young, Minister of Education, and with Hon. W. J. Bowser, the acting premier. This morning the five distinguished educationists constituting the commission are leaving for their respective homes in the East. It is promised that their report will be ready, and the location of British Columbia's seat of higher education authoritatively and finally determined, "before the snow flies." As the flying of the snow is somewhat indefinite, Dean Weldon, chairman of the commission, puts matters even more definitely in stating that the commissioners hope and expect to have their report in the hands of the government well in advance of Christmas.

## NOTABLE TRIAL NEARING CLOSE

Evidence and Argument Concluded in Case of Frewen vs. Grand Trunk Pacific—Judgment Reserved

VANCOUVER, June 27.—Today saw the close of the trial of the supreme court action of Frewen v. the Grand Trunk Pacific. Development company over 1,000 acres of land in the Chief Justice Hunter reserved his judgment. The opening gun of the last day was the request of counsel for the plaintiff that C. D. Rand produce the list of upset prices on Prince Rupert property for the auction sale here last year. The court refused to grant the witness leave to withhold the list, and it was accordingly produced.

An interesting witness was Mr. Bon-throne, the engineer who accompanied Mr. Frewen to Prince Rupert when he made his selection of the 1,000 lots, according to the verbal understanding which he claimed he had with the president of the G. T. P. Mr. Bon-throne said that when he had outlined the whole proposition to Sir Charles Rivers Wilson, at an interview in the East, that gentleman had characterized the deal as a "slick Yankee trick."

In the closing arguments late this afternoon, the case was narrowed down to the question of whether or not any prices had ever been fixed, counsel for the defence holding that no quotation had ever been put on the property which Mr. Frewen was now suing for. Counsel for the plaintiff read from a letter written by Mr. Hays to Mr. Frewen, in which the former stated that values would be put on the property as soon as surveys had been completed, and that these values would be no higher than the general public would be asked to pay. He claimed that the land values, fixed at the instance of the company, were the ones referred to in the letter, and at these figures the plaintiff should have got his land, instead of being quoted prices equal to, and in some cases higher than the top bids at the auction sale.

No matter which way the decision goes the case will be appealed.

## CANNERY BURNED ON HOWE SOUND

Building and Plant of Eagle Harbor Packing Company Destroyed—Was Nearly Ready for Season's Work

VANCOUVER, June 27.—Fire late this afternoon destroyed the building and plant of the Eagle Harbor Packing Co., situated just above Point Atkinson on Howe Sound, about ten miles from this city. Preparations were well advanced for the canning season, which opens next month. The loss is estimated at \$50,000, partly insured. The company has been carrying on a salmon packing business at that point for the past ten years.

**To Settle in Canada**  
LONDON, June 27.—A number of Major Broderick's company of territorialists have announced that they wish to go to Winnipeg and after the manoeuvres there, they intend to join a similar Dominion force. Major Broderick, who accompanies them, will find them employment.

## HEARS VERSION OF INSURGENTS

Ex-President Roosevelt Has Conversation With Senator La Follette and Will Be Visited by Others.

## WISCONSIN MAN IS MUCH PLEASED

False Rumor Started About Operation to Be Performed on Mr. Roosevelt's Throat—Is in Good Health

OYSTER BAY, June 27.—Robert M. LaFollette, United States senator from Wisconsin, and the father of Republican insurgency, spent two hours this afternoon talking politics with Theodore Roosevelt. He left Oyster Bay wearing a broad smile.

Senator Elmer Burkett, of Nebraska, another out-and-out insurgent, is coming to Sagamore Hill after Mr. Roosevelt returns from Boston. He too will talk politics.

Representative Madison, of Kansas, an irreconcilable insurgent and ardent defender of Gifford Pinchot, as a member of the Ballinger-Pinchot investigation committee, will be at Sagamore Hill probably late this week. His theme will be politics. Within the last few days Col. Roosevelt has talked politics with Gifford Pinchot and James R. Garfield. Senator LaFollette arrived early in the afternoon. He refused to talk to reporters, but when he returned from Sagamore Hill he looked like a schoolboy who had just won a medal. He was smiling his most expansive smile. "It's all right, boys," he cried, joyfully. "The colonel says I may talk to you."

"Did you talk politics?" he was asked. "An old," he said. "We talked of the legislation of the present session from the attitude of those members of the Republican party whom the newspapers are pleased to call 'insurgent.'"

"Can you go into details?"

"No, I prefer that they come from Sagamore Hill. I am very much pleased with the result of my visit with Colonel Roosevelt—very much pleased indeed."

The senator paused for a moment, recalling the happenings of the afternoon. Suddenly the smile left his face for the first time, and he said impressively, "I want to tell you that Colonel Roosevelt is the greatest living American," and he added slowly and significantly, "He is in fighting trim."

An hour later Mr. Roosevelt received the interviewers, who told him just what Senator La Follette had said about him and their meeting. The colonel smiled as though he liked it.

"I think there is nothing I can add to what the senator has said," he commented.

Mr. Roosevelt was asked what about (Continued on Page 2.)

## RAILWAY DISPUTE STILL UNSETTLED

Conference Between Representatives of Men and Canadian Pacific Fruitless—Hope Not Yet Given Up

MONTREAL, June 27.—Nothing was achieved from the conference held today between the representatives of the Canadian Pacific and the trainmen, and tonight the situation is practically unchanged.

It is possible that another conference will be held tomorrow, when Vice-president McNicoll of the C. P. R. will return to the city, but whether this will result in anything remains to be seen.

Neither side seems at all inclined to give way at present, but there is a very strong feeling among some of the men's representatives against a strike. It is hoped that some way will yet be found by which a compromise may be effected.

The men's representatives are to meet the representatives of the Grand Trunk tomorrow, and something may follow from this conference.

At a late hour tonight it is announced that the representatives of the C. P. R. trainmen had made a direct appeal to Sir Thomas Shaughnessy, the president, and they express the hope that something definite will come out of this latest move.

**Log-Scaling Record.**  
VANCOUVER, June 27.—Sixty-nine million feet of logs were measured by the provincial scaler during May. This is a record, exceeding the best previous total by seventeen million feet. At nine dollars per thousand this output is worth \$621,000.

**New Coal Mine Works**  
NELSON, June 27.—The Corbin mines at New Michel are opening up full blast. Two hundred miners have been employed there recently, and more are wanted. Thirty-five miners' houses and a big hotel will be built during the summer to accommodate the large number of men required. The company has just closed a contract for 700 tons daily. Adding the usual sales or about 300 tons daily this company will now supply permanent contracts amounting to 1,000 tons a day.

## ALDERMEN SEEK AN EXPLANATION

Want Information to Show Who Is Responsible for Condition of Affairs in Civic Administration

The status of the city engineer, the right of the city council to ask for explanations of his apparent failure to carry out work which has been ordered and if he is not to blame then who is, formed the theme of a lengthy discussion at last night's meeting of the city council during the course of which Alderman Humber declared the mayor seemed to take a keen delight in having the city officials run their heads against a wall and then laugh at them. It was one of those incidents which are common in council circles now and ended at about the same point as where it began.

The trouble arose when the Douglas street improvement bylaw came up for the final reading which would make, it law. Alderman Bannerman asked that the measure be left over for a few days. He understood that the cost of the sidewalk widening as recommended by the city engineer would prove much higher than the amount estimated by that official. Assistant City Engineer Bryson, under whose charge the work is, had told him so and in fact was holding back until provision for the greater cost could be made. Mr. Bryson had promised to give the council the correct figures and that was why Alderman Bannerman asked that the passing of the bylaw be delayed.

Alderman Fullerton was on his feet in a minute declaring that the assistant engineer had no right coming to the council behind the engineer's back. The latter was supreme. There only one city engineer and if any reports or estimates were needed Mr. Smith could make them.

Alderman Bannerman declared there are some works costing too much and methods had not improved as much as they should have.

Mayor Morley explained that the engineer in making his estimate of the cost of sidewalk widening had evidently forgotten to make allowances for the cost of moving and connecting up hydrants, moving poles, etc. He believed it would be wise to let the bylaw stand over and get the proper estimate.

Alderman Fullerton wanted no figures from Mr. Bryson. They should come from the engineer, but to take them from the former would simply be giving the engineer a slap in the face.

Then Alderman Mable wanted to know why the crematorium plant has been practically shut down. Some of the men, he understood, had walked out.

The mayor did not know personally why the work had stopped, but he understood that some of the men had been found looting and had been discharged. No doubt the city engineer would know.

Alderman Mable declared the engineer did not know for he said so himself.

Alderman Fullerton believed the trouble was that there is not full co-operation between the two engineers, while Alderman Humber placed the blame higher by declaring the mayor appeared to delight in seeing the officials in trouble. The fact of the walk out at the crematorium plant was that some men raised the pay of several new men employed at the plant and the old men walked out.

By whose authority the pay was raised, or who was it that discharged the men, if the mayor's version of the cause of the trouble was correct, were queries which the mayor declared he could not answer. Also why was it that when repairs were ordered to be made to the storage tank at the crematorium plant two months ago no repairs have as yet been effected. This question, too, could not be answered by the mayor, who suggested that the engineer might be able to give an explanation. The plant has been placed under the charge of the assistant engineer and the latter was doubtless kept posted.

The engineer will be asked to explain to the aldermen making it clear that in so calling for an explanation there was no intention of criticising that official, but they merely wanted to know.

the older and heavier machines to press the Wrights hard for the laurels of the meet.

Mr. McCurdy, the Canadian among the aviators at the meet, was again unsuccessful in getting up. He made two attempts with his powerful biplane No. 2, but did not get going properly and only left the ground a few feet, to descend immediately.

The breaking loose of a dirigible created a scare in the crowd. Young Dixon, the 15-year-old aeronaut, when his machine was about ten feet from the ground, dropped out when the power which drives his propellers stopped. He failed to grab the rope as he dropped. The machine shot up in the air about three thousand feet, the gas exploded and the dirigible came down to total wreck on the ground. Hundreds of spectators were in the special train waiting for the sliding at Lakeside when the affair happened at 6.30 p.m., and they returned to the city under the impression that Dixon was in the machine when it was wrecked.

The attendance was about three thousand. The flight was splendid and started to finish without a hitch, except possibly the failure of McCurdy to fly with his biplane.

## HEARS VERSION OF INSURGENTS

the report that was published to the effect that an operation on his throat was to have been performed this morning. "Why the first thing I heard of it," he said, "was when Senator La Follette arrived here this morning, and told me that he had read that report. I have never even heard of the doctor who it was said was to perform the operation. How do you suppose such stories about me become current? You can see for yourself that not only is there nothing wrong with my throat, but that I am in perfect physical condition." He said he had had no throat trouble since King George's physician treated him.

"I contracted bronchitis when I was in

Norway," he explained. "I was very anxious to make all the speeches I had agreed to, and I did make them, every one. But in England I got what is called the 'camp' throat. Singers call it the 'opera singers' throat. Then the physician merely sprayed it. He did not even paint it. It was not even as sore as if he had been doing something to my little finger."

Getting back to the La Follette conference, Mr. Roosevelt wished to make it clear that he had not "summed" the Senator. La Follette, Senator La Follette, Senator Burkett and Representative Madison he said, had all wired him asking if they might come to Sagamore Hill. It was so late in the morning when he found the telegrams amid the day's grist of mail and wire messages that although he telegraphed to the insurgents to come, only Senator La Follette received the reply in time to reach here today. He expects the others soon.

## BOLD BANDITS

Train on Oregon Short Line Held Up and Passengers Robbed—Some Roughly Handled.

SALT LAKE CITY, Utah, June 27.—After quelling a train crew on the Oregon Short Line train No. 27 second section, attacking passengers and robbing them of their valuables, three robbers broke into the Wells Fargo express car, gathered considerable loot and fled. The scene of the hold-up was Harrisville, six miles north of Ogden and the robbery occurred at 2.30 a.m. today.

The train westbound was going slowly through Harrisville when the three robbers appeared on the platform of one of the passenger coaches. The man Franklin attempted to give the alarm but was struck on the head with a revolver butt and thrown from the train. The robbers made a systematic search of the occupants of the coaches. Rings watches and other jewelry and money poured into their pockets. Occasionally a passenger who he obstreperous was tapped on the head with a revolver butt.

Two of the train crew appeared on the scene and both were locked in a lavatory of one of the cars. Meanwhile the train sped along while the remainder of its crew was oblivious to the sacking of the coaches.

After looting the passengers, the robbers broke into the express car. While two of the bandits covered the express crew with revolvers, the other collected valuable packages and money. They then pulled the whistle cord and the train slowed up, dropped off in the darkness.

Meanwhile Brakeman Franklin had recovered consciousness and crawled to a farm house. News of the robbery was telephoned to Ogden and Franklin was given medical treatment. Shortly after 4 a.m. Salt Lake City was notified that a special train carrying Joseph Jones, chief special agent of the Short Line, and an armed posse had left Ogden at 4.30 o'clock. Armed posses on horseback also set out from Ogden and Brigham City to take up pursuit of the robbers.

The robbers were particularly brutal in their treatment of the passengers and crew. In addition to beating Brakeman Franklin and throwing him from the train, they attacked the express messenger and beat him into insensibility. Many of the passengers in the Pullmans were struck while they were asleep and others who were awakened, and offered resistance, were clubbed with revolver butts. Earrings were torn from the ears of women passengers.

The robbers were reported to have been seen near the Lucin cut-off. Their total loot is estimated at \$333 in money and \$1,000 worth of jewelry.

## DIAZ RE-ELECTED

Mexican President Given Another Term by Electors—Carral Vice President.

MEXICO CITY, June 27.—The election of Diaz as president and Carral as vice-president of Mexico yesterday will be formally ratified by the chambers of congress on July 10. Diaz was unopposed and contrary to predictions there was no disorder.

Owing to the advanced age of President Diaz it is believed this will be his last term. It is predicted by politicians that Felix Diaz will be appointed governor of Vera Cruz and that in 1916 Carral will seek the presidency and Felix Diaz the vice-presidency.

Their election would mean a perpetuation of the Diaz policies.

## DESPERADO KILLED

Militia Called Out to Secure Capture of Georgia Man—House Riddled By Bullets.

IRWINVILLE, Ga., June 27.—Fantically defiant while the shadows of death closed around him and volley after volley from two state militia companies made a sieve of the walls of his humble home. W. H. Bostwick, the white desperado, who observed his last Sunday by the murder of two officers of the law and the serious wounding of three others, paid the penalty of death shortly after 6 o'clock this morning.

Bostwick succumbed to many wounds received from the volleys fired into the building in the night by a mob of infuriated citizens or from those of the military, who began an attack after 4 o'clock this morning. Surrounded by his little children, whom he held prisoners, almost to the end of the siege, Bostwick, who had declared his intention to die rather than submit to arrest on charge of attempting to murder his brother-in-law, fought to the last ditch. Knowing that death was near, the man finally allowed his children to leave the house.

## Fraudulent Cheese

OTTAWA, June 27.—L. Lalonde and F. Robinson, Papineauville, Quebec, pleaded guilty to charges of "stuffing" 21 cheeses with inferior or worthless "cheese." The charge was laid by Inspector MacPherson, of the city's commission's staff. The defendants were fined \$25 and costs, and there will be the loss on cheese in addition. This is the second case which has come up under the law.

## Deaths from Heat

CHICAGO, June 27.—Three men are dead and another is near death as the result of the terrific heat of the last 24 hours. John Murphy, laborer, dropped dead in a saloon. Emil Fredrickson, teamster, was found dead in bed. Thomas Elliott, laborer, employed by the city water department, fell dead in the street. Edwin Slagle, of Aurora, was overcome by the heat while attending services at the Bible Institute. His condition is serious. Relief is promised for tomorrow. Light showers, accompanied by breezes, were predicted.

## PURCHASE SITE ON STORE STREET

Messrs. P. Burns & Company To Erect Warehouses and Cold Storage Plant on Waterfront

An extension of the enterprise of the firm of Messrs. P. Burns & Company in this city is marked by the purchase by that concern of the site on Store street, where the Western hotel stands, and upon which it is intended to erect a cold storage plant and warehouses in connection with the propagation of the meat business. The price of the property was in the neighborhood of \$90,000. As an adjunct to the buildings which will be erected there, wharves will be established so as to facilitate the shipment and arrival of products from and to the city. Messrs. P. Burns & Company intend largely increasing their ventures in this city, and to this end the latest purchase has been made. The site will give them an ideal location for business enterprise as well as wharfage facilities of a character possessed by no other butcher's establishment in the city.

## MR. MCGUIGAN DEAD

Was Vancouver's First City Clerk, and Held That Office for Twenty Years.

VANCOUVER, June 27.—Thomas F. McGuigan, one of the oldest residents of the city, and for many years city clerk, died yesterday. He was the first to hold the office of clerk, starting in 1886 and remaining in it for twenty years. He was subsequently an alderman for a few years. Mr. McGuigan was a native of Stratford, Ont., and was fifty years of age. He leaves to mourn his loss a wife, one son, Mr. Stewart P. McGuigan, and a daughter, Miss Frances. Dr. McGuigan, at one time mayor of Vancouver, was his brother.

## Insane Chinaman Drowned.

NELSON, June 27.—Chung Sam Hop, an insane Chinese, while being taken to New Westminster by Provincial Constable J. Simpson, of Kaslo, jumped overboard from the steam-er Rossland, between Nakusp and St. Leon and was drowned in Arrat lake yesterday. His body has not been recovered. Simpson has returned to Nelson.

## Caught in Quicksands.

SANTA FE, N. M., June 27.—The quicksands of the Rio Grande caught two victims yesterday at the little village of Alcades, 20 miles north of Santa Fe. Nine-year-old Max Sanchez walked into the river and sat down in the water, at that point a foot deep. When he tried to wade out he found the sand had him in its grasp. He screamed for help and 14-year-old Leandro Sanchez ran to his aid, only to be himself dragged into the dead sand. When other would-be rescuers arrived both boys were drowned, although their heads were above the sand.

## Chinese Tong War

NEW YORK, June 27.—Two Chinamen are dead, a third badly wounded in a hospital and seven other Orientals are under arrest as the result of a renewal yesterday of hostilities in the never-dying tong war in Chinatown. Shu Foo, a Long Island laundryman, was the first victim to succumb to the wounds he received when a fusillade of shots broke loose while the Four Brothers, one of the parties to the conflict, were celebrating an anniversary in Pell street and the On Leong tongs, their rivals, sore over the murder of one of their number, were gathered in Mott street nearby and are said to have raided the banquet.

## Four Lives Lost

LA CROSSE, Wis., June 27.—Federal Steamboat Inspector Knapp today is investigating the burning of the excursion steamer J. S. 24 miles below La Crosse, on the Mississippi River, Saturday night, when Mrs. Emma Crandall was drowned and fifty others injured. Jack Plein, Norval Fox and a third man are still missing. They were locked in the forward hold of the vessel for drunkenness and reported that they were burned to death. The body of Mrs. Crandall was recovered today. There were fifteen hundred excursionists on board when the fire broke out. The boat caught fire when two miles above Victoria, Wis. Putting on full speed, Capt. Streckfus headed the boat for Bad Axe Island, in mid river, which was but a short distance away. Before the general alarm was sounded the vessel had grounded on the sand and good work of the crew prevented a great catastrophe.

## GERMAN BRIDE

Rumor Circulated That Prince of Wales May Wed Daughter of Emperor William.

BERLIN, June 27.—There are interesting rumors in circulation in military and social circles at Potsdam to the effect that the Kaiser and Kaiserine are thinking of a matrimonial alliance between their only daughter, Princess Victoria Louise of Prussia and the eldest son of the King and Queen of England, who is the Prince of Wales. The Princess, who will be 18 next September, is one year and three-quarters older than the Prince of Wales, but that would not be regarded as a handicap from her parents' point of view. The Kaiser's wife is several months older than the Emperor, and their second son, Prince Frederick of Prussia, is married to a princess nearly three years his senior.

It is hoped in Potsdam court circles that when King George and Queen Mary make their first official visit to Germany they will be accompanied by the Prince of Wales and that the latter may have an agreeable opportunity of making acquaintance with his fair third cousin, which may some day ripen into affection.

The number of European princes who the Kaiser and Kaiserine consider eligible for their only daughter's hand is rather limited. Those who are generally looked upon as most eligible are Roman Catholics, like the young King of Portugal and one of the Austrian Archdukes. The Kaiserine, who is very deeply attached to her daughter, has, in accordance with an old family principle, brought her up as an uncompromising Protestant, and would rather see her married to one

## Malta-Vita

"The Perfect Food"

There's nothing else like it. Nothing so good. Nothing that can take its place. Mixed with pure barley malt extract, the cooked whole wheat is rolled into little wafer flakes—every grain of wheat a flake—then baked in great, clean ovens till it's crisp and brown, "done to a turn", the most delicious, the most healthful food in the world. And that's the way it comes to you in sealed, air-tight, dirt-proof packages. All grocers.

of the most obscure princes than share a throne with a Roman Catholic King. The marriage with the future King of England would suggest political advantages of far reaching effect. The close dynastic ties between England and Germany of course have not been able to prevent strained relations and the bad blood between the two countries, but it is believed in Germany that if the Kaiser's daughter should become Great Britain's future King's consort, the danger of Anglo-German hostilities would become remote to the vanishing point. King George ranks here as a first-class Germanophile and doubts as to whether he could be persuaded to consider an alliance between his heir and the Kaiser's daughter as expressed.

## CHANCE TO SOLVE LABOR SHORTAGE

New Imperial League Formed in England to Promote Emigration of Deserving Britishers to British Columbia

To promote the emigration of deserving Britishers to Canada, and to arrange for the founding of towns in this province named after towns in the Midlands of England, an Imperial League has been formed in Great Britain under the honorary presidency of Mr. Joseph Chamberlain. Mr. Norton Griffiths, M.P., the president, and one of the principal promoters of the scheme, and others associated with him have taken up a large tract of land on the line of the Grand Trunk Pacific Railway on which the proposed immigrants, many of whom will be adapted to farming, will settle.

During a recent visit made to the Old Country Mr. Graham Forester, of this city, identified himself with the League in question and has been made its representative in British Columbia. Mr. Forester in his new capacity is now in a position to supply any contractor with skilled and unskilled labor drawn from residents of the British Isles. As well as arranging for the despatch of emigrants to this province and other parts of Canada, the new Imperial League will attract the attention of British capitalists and manufacturers to this portion of the Dominion. In effect, the motto of the new organization is "The British Empire for the British Race."

## "COMMENCEMENT" AT ST. ANNE'S

Exercises in New Assembly Hall Where Prizes Were Awarded and an Address by the Bishop Delivered

The commencement exercises of St. Anne's Academy were held yesterday afternoon in the fine new assembly hall in the new wing of the convent. The girls looked very fair as they assembled in the gallery to greet their friends and to receive the reward of their year's work. To the visitor it seemed as though there were few who had not received some mark of distinction. The prizes and diplomas were presented by his Lordship Bishop Macdonald who seemed to enjoy the giving almost as much as bright faced girls did the receiving of the honors.

The following programme was excellently rendered, the vocal music giving especial enjoyment to the large audience.

Bishop Macdonald said that in addressing the graduates last year, he had spoken on education, and he could think of no subject so suitable on this occasion. He would put in a plea for greater simplicity. The true purpose of education was the cultivation of the faculties, the enabling us to think for ourselves, not the pouring in of knowledge. In these days when science was making such progress there was a danger of attempting too much. The bane of modern education was the multiplicity of subjects.

In his experience as a teacher, his Lordship said (and he had taught for nineteen years) he had learned that it was better to learn a few things well than to get a smattering of many things. Learning to be of any use must be digested as well as bodily food. The youth tries his prentice hand day after day till facility in the use of tools is wrought into the muscles and bones so by patient study knowledge becomes part of the very fibre of the mind.

But education was not only of the mind, but of the heart. The building up of character was the last word in education. His Lordship read two extracts, one from Governor Marshall in Indiana, and the other from "an old white-haired man in the Vatican," showing the value and power of religion in moulding character.

The brief address closed with a simple but eloquent appeal to the pupils to make the practice of religion their highest aim as well as their greatest ambition.

The very high percentage made by the graduates in stenography and typewriting was noticed, and the great improvement in writing and manual work was worthy of special commendation.

### Paine

The funeral of the late Mrs. Paine took place from the family residence, 227 Ontario street, yesterday afternoon. There was a large crowd of friends present, and many floral tributes were presented. Rev. W. Leslie Clay officiated at the residence, and Rev. Jos. McCoy at the graveside. The following acted as pallbearers: W. Norman, T. Gray, C. Gilman, W. Dawson, C. K. Pomeroy and J. Lalng.

### Borrowing Money in London

LONDON, June 27.—The Paris Bank proposed to issue next week at 102 1-2 \$4,500,000 of 6 per cent. first mortgage bonds of the Steel Company of Canada. The brokers are the Western Canada Trust. Another issue being underwritten is \$770,000 five per cent. first mortgage gold bonds of the Algoma Central and Hudson's Bay Railroad at 90, principal and interest guaranteed by the Lake Superior Corporation. Another British Columbia lumber company issue is also pending, namely the Swanson Bay Forests, Wood Pulp and Lumber Mills, Ltd., \$150,000 6 per cent. first mortgage sterling bonds. The directorate includes Robert Cox, Ottawa.

### British Emigrants

LONDON, June 27.—The Church Emigration Society despatched a party of working people to Canada on the Lake Erie, which is sailing this year under the Allan line flag.

## NO RESTRICTION ON SUNDAY SELLING

City Council Refuses to Accept the Suggestion of City Solicitor—Liquor License Fees Increased

While the city council is willing to raise the liquor license fee to \$650 for all classes of licenses and did so last night by putting through the necessary bylaw to amend the revenue bylaw it refused to accept the suggestion of the city solicitor that a provision which would prevent the sale by a retail trader of any goods on Sunday other than milk, drugs and medicine should be inserted. The bylaw to provide for the increase in the license fees had attached to it a slip which read as follows: "No retail trader in the city of Victoria shall sell or expose for sale any goods, chatties or other personal property whatsoever except milk, drugs and medicine on a Sunday."

When asked to explain the city solicitor stated that as the city's attempt last year to prevent Sunday selling by issuing traders' licenses good for but six days had failed, the bylaw being declared unsound, the only way was by direct legislation, that is, insert a provision in the bylaw prohibiting the sale on Sunday.

The advisability of prohibiting Sunday selling did not worry the aldermen who promptly threw out the solicitor's suggested amendment without comment.

Another suggestion of the solicitor's, that the request of the owners on Port street that the cost of the pavement be extended over 20 years even though the life of the work would not be more than ten years, also came in for criticism. The solicitor pointed out that in the case of a wood block pavement the concrete foundation would be good for a life of 40 years. At least that is the length of time given in Vancouver. At the end of ten years the foundation will be good for another term of ten years and the blocks can be replaced at very slight expense to the owners. In addition, in spreading the payment over 20 years the debentures are more easily sold and bring a better figure than if only issued for ten years.

Alderman Mable dubbed the solicitor's communication as a most amusing document. The solicitor was asked to give a legal opinion and instead he had given an engineer's opinion. The matter will be considered by the street committee.

Alderman Bannerman also had his fling at the solicitor when the latter's opinion as to the right of the city to divide the Dallas road improvement scheme into two or more bylaws in order to get around the legislative restriction which prevents the city contributing more than \$15,000 on any single improvement. Alderman Bannerman believed that the restriction was placed in the act for the purpose of protecting the people. The act permits the city, if the electors agree, to exceed the \$15,000 limit. As the Dallas road scheme requires the city to expend very much more than that amount the proper course is to submit the bylaw to the people. To divide the work among several bylaws was simply evading the spirit of the act passed to protect the people.

Alderman Langley stated the bylaw to provide funds for foreshore protection will be submitted to the electors but the street improvement bylaw could be split into two bylaws without taking any advantage of the electors.

Alderman Mable urged that in view of the city having to pay two-thirds of the cost of the work because of the great amount of city land along the road the bylaw should go to the electors.

The matter will be further discussed at the next meeting of the streets committee.

At the request of Alderman Bannerman, who declared the regulations affecting stables are not being enforced, the city clerk was asked to make a report on all stables within the fire limits which have not got proper sewer connection and how many stables have been connected during the past year.

Fire Chief Davis complained of the lack of pressure in the mains of the Esquimalt Waterworks company and asked the council to take the matter up with the company. The firewardens were to investigate and report.

A number of local improvement reports and bylaws were considered and passed.

### Follow Athenian Example

NEW YORK, June 27.—The senior class of the college of the city of New York presented to Mayor Gaynor an "Ephesian" oath, swearing, as did the Athenian youth, never by acts of theirs to bring disgrace upon the city's name.

The mayor, who has urged students to interest themselves in public affairs, was greatly pleased. The oath is engrossed on parchment.

### Third Degree Methods

WASHINGTON, June 27.—The select committee of the senate appointed to investigate the police methods known as the "Third Degree" will be divided into two sub-committees for the investigation of the conditions in the east and west respectively. The full committee met today, and decided upon a division of the work. Among the cases which it is intimated may be investigated are the Saylor case of Atlantic City, and the Perrin case of California.

### Probably for Life

CAMBRIDGE, Mass., June 27.—

Prison doors closed today for ten years, if not for life, on John J. Lombard, former town treasurer for Framingham, who had confessed to forging town notes aggregating \$300,000 during the past ten years. He is 60 years old. Lombard collapsed when the clerk read the sentence of not less than ten nor more than fifteen years in the state prison.

BUFFALO, June 27.—Edward Fraser, a non-union sailor, was found bleeding to death on the docks tonight. His left ear had been slashed off, and there was a deep cut thirteen inches long in his thigh. Across his forehead was pasted a printed placard bearing the inscription: "Don't be a strike breaker." Fraser had lost a lot of blood before a policeman found him, and he may die.

#### A DANGEROUS POLICY

The effort now being made in certain quarters to stir up the Indians to an assertion of their imaginary title may easily prove very mischievous. It is a very extraordinary thing that such an attempt should be made. Our information is that it does not emanate from the Indians themselves, but from some white people, who might be very much better employed. It can hardly be that these people appreciate what they are doing. For nearly a century the Indians and white people in this Province have lived side by side on the most friendly terms. Liberal provision was made by the latter for the former, whose position is very much better from every point of view now than it ever was. It may be that some of the tribes are diminishing in numbers because of their changed manner of living; but no one can honestly say that the white occupation of the country has not on the whole been very much to the advantage of the Indians. It is proposed now to combine the several tribes in an effort to assert an imaginary title, to invent for them a grievance, to sow seeds of discord between them and the white people. This is an exceedingly dangerous business. No white man can tell how the Indians will look upon the claims now being made in their behalf. They are very likely to take them seriously indeed. They are likely to regard themselves as victims of the greed of the white people, and they are almost certain to form expectations that will surely not be realized. Who is going to be responsible for the results of that disappointment? In the cities or thickly settled districts we can afford to regard with indifference anything which the Indians may think on any subject. But what about the settlers in remote localities? Are the firebrands, who are stirring up the red men to take a position which, if left to themselves they would never have thought of taking, going to guarantee the safety of the women and children out on the frontier, when the Indians realize that the absurd claims made on their behalf cannot be allowed? Are they in a position to say that they can control the spirit that they are exciting? Are they going to accept the responsibility for what will take place, if a single outrage is committed by an Indian against a white settler? We tell these people that they are playing with fire, and that they may kindle a conflagration that may only be quenched with blood. There are some who will say that we state the case too strongly; but we do not. One of the best informed persons in British Columbia in regard to the Indian character was asked if he thought the Christianized Indians would refrain from violence, if things did not go as they are being told they ought to. His answer was: "I do not know. The veneer of civilization is thin, and if once the whiskey peddlers get among them, when they are excited over fancied wrongs, no man can tell what may not happen." An esteemed correspondent, who has lived in this Province for years, and who knows something of the Indian character, writes to us to say that the warning against this mischief-making policy above referred to cannot be stated too strongly.

#### ADVERTISING THE COUNTRY

The Westliche Canada Post, published in Vancouver, has drawn the attention of the Provincial Bureau of Information to some statements that have been printed by the Department of the Interior in a pamphlet intended for circulation in Germany and Austria. It has translated some paragraphs from the pamphlet, and they are certainly extraordinary. It shows that the area of the Dominion is understated by half a million square miles, and that the population is put at five and a half millions. The mileage of the Canadian Pacific is put at only a little more than half what it really is. Sidney and Charlottetown are said to be the winter ports of Canada. The St. Lawrence is said to be navigable for forty miles. Poplars are said to constitute the wealth of the Canadian forests. The great prairie is 100 miles wide. Victoria has a population of 21,000, and Vancouver 26,193. Gaspe is recommended as exceedingly well adapted to colonization. Ontario winters are for healthy men. The Grand Trunk Railway connects all the cities and towns in Eastern Canada, and nearly all the small places. The Post says that these are only sample misstatements, and it thinks that something ought to be done to rectify the harm that has been caused thereby. The Bureau of Information has promised to take the matter up with

the Department of the Interior. Meanwhile we wonder how such extraordinary statements could have been sent out in an official circular, and we compliment the Post upon directing attention to them.

#### THE COMPANIES ACT

The request that the Government shall suspend the operation of the Companies Act, until the Legislature has had an opportunity of amending it, is one that cannot be complied with, no matter how much the law officers of the Crown may be of the opinion that the phraseology of the Act ought to be changed in some particulars. We have no authority for saying that such an opinion is held by them, but rather otherwise; but that is neither here nor there. The Government has no power to suspend an Act that has been passed by the Legislature. The Attorney-General, in cases where a statute authorizes him to do or refrain from doing certain things in his discretion, may be influenced by possible hardships, that might arise under a statute, in the exercise of that discretion until amendments could be made; but to ask him to set the solemn declaration of the Legislature at defiance is something that cannot be done with any reasonable expectation that the request will be complied with, for he has no authority to do anything of the kind. To hold the contrary would be to make the Government superior to the Legislature, and might give rise to a great many very serious difficulties.

#### NEWFOUNDLAND FISHERIES

We have had several telegraphic references to the question now before The Hague Tribunal in which the Newfoundland fisheries are involved. The question before the Tribunal is the interpretation of the Treaty of 1818. The framers of that Treaty doubtless thought they were making it too plain for any mistakes to arise as to what it meant; but almost as soon as the Treaty was ratified doubts arose as to what it meant. Mr. McGrath, of Newfoundland, has stated the issues involved. We quote the case as presented by him:

The first point to be decided is what is meant by the word "inhabitants." Can vessels flying the American flag employ fishermen not alone residing in the United States, but who may be shipped in Canadian ports or on the high seas off the Newfoundland board, beyond territorial jurisdiction? Newfoundland holds that none but genuine "inhabitants" of the Republic residing in that country and shipped at an American port can be employed, while America takes the position that the flag covers all who may be on board.

The second point that arises is what is meant by the liberty to take fish "in common" with British subjects. Are American fishing vessels and their crews, operating in Newfoundland waters, bound by the local regulations that may be made from year to year by the Island Parliament? Newfoundland contends that they are so bound, but the United States maintains that any such regulations must be by joint agreement, dictated solely with the object of preserving the fisheries, as if the colony were conceded the right to make regulations of itself, it could so frame them as to destroy the value of the liberties granted to American subjects by the treaty.

The third question arising is as to whether inhabitants of the United States are required to report at the custom-houses, pay light or other duties, or be subject to any similar regulations. Newfoundland contends that she is entitled to require that vessels of every nationality entering her waters must report at custom-houses, and, as they participate in the benefits of her lighthouses and other service, should pay light and other duties on a similar basis to vessels of the United States. The United States maintains that American fishing vessels are under no such obligations.

The fourth question is as to where the three marine miles off the coasts, bays, creeks, or harbours, mentioned in the treaty of 1818, are to be measured from. This rises once more the whole "headland" question, on which there will doubtless now be a definite pronouncement. Britain maintains that territorial jurisdiction extends seaward by three miles from a line drawn from the outer headlands, no matter how wide the bay that is enclosed may be, and the United States on the other hand, maintains that the three-mile limit should follow the sinuosities of the coast.

The fifth question involved is whether Americans have the right to take fish in the bays, harbours, and creeks of Newfoundland and the Magdalen Islands, as they admittedly have on the coast of Labrador. Newfoundland maintains that they have not, on the ground that a differing phraseology implies a difference in the liberties conceded, whereas the United States contends that the admitted practice since the treaty of 1818 was negotiated has been for Americans to fish in these inlets.

The arbitrators are five in number, one of whom represents Great Britain, one the United States and the others being foreigners. The President of the Tribunal is a foreigner. Very great interest attaches to the decision that shall be arrived at. There has been nearly a century of controversy over the question; but we assume that the verdict, whatever it may be, will be accepted in good faith by both parties.

If the Finns decide to come to Canada, they ought to be made welcome, for they are an excellent people.

Dr. William Osler says that in three generations consumption could be stamped out if the public would do its duty.

In case any one may have forgotten it may be as well to say that Mr. W. H. Taft is still President of the United States.

ment, and has filled a number of very Winnipeg man says our strawberries are the best on the market. That's not news to us here, though doubtless it is to the Winnipeggers.

And now it is said that Earl Grey will resume the duties of his office for another year. There will be no regrets in Canada on that score.

Important positions. His work was always thoroughly done, and he leaves behind him the record of a useful and honorable citizen.

One of our Seattle contemporaries assures the public that on a certain political committee there is no one who has robbed a bank or been accused of a crime. Whether this is "writ sarkastik" or is intended as a recommendation we shall not undertake to say.

And now we are told that the Prince of Wales is to marry the daughter of the Kaiser. The young lady is older than the young gentleman, but the difference in the years is not quite two, and this is not a very serious matter.

An explanation of the letters "O. K." is given. It is said that they were used to indicate that proofs in a certain newspaper office had been passed upon by a person usually referred to as the "Old Kernel." This is as it may be. Now will some one tell us the origin of the expression "30"?

Some absurd persons are trying to create an impression that the conference between the political leaders over the House of Lords is a terrible thing. It is really nothing more than an attempt to see if a way cannot be found to bring about a result that every one admits ought to be reached at the earliest possible day.

Great indignation has been aroused in Seattle because of the practice followed by produce dealers of throwing strawberries into the sea so as to create an artificial shortage. It is said that dealers, who do this, report to the growers that the fruit was spoiled, and, of course, the contrary cannot be proved.

No future event in a long time has received the same degree of attention in the United States newspapers as is given the forthcoming prize-fight between Jeffries and Johnson. Columns upon columns are devoted to it. Even the magazines are discussing it. It easily overshadows all other matters before the public. There never was anything quite like this. The question that suggests itself is: Are the people really interested—or are the newspapers simply working up an interest for revenue purposes? It cannot make any real difference to anyone except the principals to the fight, which one of them can beat the other. Yet the Post-Intelligencer of yesterday devoted eight columns to speculations as to the result.

The Halifax Chronicle gives some interesting particulars of a colonization scheme for which the Allan Line is responsible: "It contemplates the sending out to Canada 2,000 pioneers, their wives, and 4,000 children this year, and 5,000 men, their wives, and 10,000 children in subsequent years. Each man would be provided with credit for the equipment of his homestead, and the whole cost to each family, including insurance and fidelity bond, would be £150. This would be advanced, Mr. R. S. Scott explained, as a loan bearing interest at 7 per cent., repayable over five years. Such a scheme could be administered on a maximum credit of £2,250,000, which in the sixth year by repayments with 7 per cent. interest would fall below £1,000,000 and remain at that figure. It would provide a start in life for 20,000, pay interest at 3 per cent. per annum, and furnish a reserve fund of £20,000 per annum, and £10,000 for administration in Great Britain. He stated that the scheme was being considered by the Labor Exchange authorities and would be submitted to the Canadian Government."

We are inclined to think that the announcement in our evening contemporary as to the intentions of the Grand Trunk Pacific in regard to improvements at this port, is a little premature. We do not wish to be understood as suggesting that large warehouses and stores will not be built by the company, but the citizens will have to wait a little while for an authoritative statement on this point. In the latter part of August Mr. Smithers, the Chairman of the Board of Directors of the Grand Trunk Railway company, and Mr. Hays will visit Victoria, and it is probable that we shall then be informed with certainty what the company's intentions are. We only say this to prevent any disappointment that may arise if the company does not proceed forthwith to erect large structures on its property. At the same time we do not wish to say a word that can be construed as suggesting that the roseate views expressed by our contemporary are not well founded, for they are, although it is possible that the company's energies may not be exerted in quite the line which it anticipates. This has yet to be decided. Our contemporary says that the company is building for the present, and so it is; but it is also building for the future. The advent of the G. T. P. steamships to Victoria is a matter of profound importance to the city.

week.

Miss Viva Babington was hostess  
at a very enjoyable tea and dolly  
shower on Saturday afternoon, in  
honor of her friend, Miss Edie Cole,  
whose marriage to Mr. Arthur Shot-  
bolt takes place on Wednesday, the  
29th inst. The dollys were present-  
ed in a prettily decorated box in the  
shape of a heart. The tea table was  
delicately arranged in pink, white  
and pink ribbon. Among those who  
contributed to the afternoon's enter-  
tainment with songs and instrumental  
music, were Miss May Shotbolt, Miss  
Isabel Moore, Miss Cole and Miss  
Lenore Black.

The members of the Alexandra and  
University Clubs held a reception last  
evening at the club rooms in honor of  
the university site commissioners who  
are now in Victoria. The rooms were  
beautifully decorated with quantities  
of pale pink carnations, hydrangeas,  
malden hair ferns and palms. The  
refreshment table was very artistic-  
ly arranged. A large pale green rus-  
tic basket being in the centre filled  
with yellow and white lilies and tied  
with pale yellow chiffon. Mrs. Albert  
F. Griffiths, Mrs. C. M. Roberts, Mrs.  
Rasmussen and Mrs. Hogg undertook  
the decorations. The reception was  
very largely attended and the guests  
were received by the president, Mrs.  
Henry Croft. During the evening a  
very enjoyable musical programme  
was rendered which had been arrang-  
ed by Mrs. Young.

An attractive wedding was solemn-  
ized at St. John's church, North Van-  
couver, when Olive Mary, eldest  
daughter of Rev. H. A. Butler (late  
vicar of Christ Church, Leeds, Eng-  
land), and Mrs. Butler, of Port Lang-  
ley, was married to Mr. Edgar Phil-  
lips Jackson, of Kamloops, son of Mr.  
and Mrs. E. Hoskins Jackson, of Bur-  
ton-on-Trent, England. The church  
was prettily decorated for the occa-  
sion by the bride's friends. Her  
father officiated, whilst valued assist-  
ance was rendered by Mr. John Alex-  
ander, organist of St. John's, and a  
voluntary choir of ladies. A large  
number of friends assembled at the  
church and a reception was after-  
wards held at the home of the bride  
and her partner, Miss Violet Grad-  
well, where an interesting display of  
wedding gifts was on view, both or-  
namental and useful. The bride was  
attended by her sister, Miss Joan But-  
ler, while Mr. Percy Adams, of Kam-  
loops, acted as best man. The bride  
was given away by her brother, Mr.  
P. A. Butler, North Thompson River.  
Later in the day the bridal couple left  
for Vancouver Island.

## OWNERS PROTEST

Object to City Taking Steps to Ex-  
propriate Their Lands for Park  
Purposes.

While there are a large number of  
ratepayers who have shown their belief  
that the city would do well to purchase  
or expropriate a portion of the Pearce  
estate on Fort street and Belmont  
street for public park purposes by  
signing the petition recently submitted  
to the city council by Mr. Justice Mar-  
tin, there are some others who object  
to the proposition and these are the  
owners of some of the lands which it  
was suggested the city should expro-  
priate. At last night's meeting of the  
city council a counter petition signed by  
Mr. Maurice Cane, Mr. A. R. Sherwood  
and Mr. E. C. B. Bagshaw was present-  
ed in which they voice their objections  
to the scheme and point out that they,  
as owners of the larger part of the  
lands which the council has been asked  
to expropriate, did not sign the peti-  
tion asking for expropriation, and they  
ask the city council not to grant the  
petition put in by Mr. Justice Martin.  
In this latter petition the value of  
the property which the city was asked  
to expropriate was put, in round fig-  
ures, at \$30,000. The owners point out  
that there are some 40 lots each of  
which is worth nearly \$1,500. Con-  
sequently they would object to accepting  
anything like \$30,000 for the property  
even if they had any desire to sell  
which one of the owners stated last  
night they will not do.

## BOY'S BAD FALL

Attempted to Ride Bicycle Around  
Steamer's Deck and Fell Into  
Hold.

On Sunday afternoon about four  
o'clock a young boy named Rideout,  
residing near Ross Bay cemetery, fell  
through one of the open hatches of the  
steamer Grainer and sustained injuries  
which rendered him unconscious, neces-  
sitating his removal to St. Joseph's  
hospital. Rideout had gone on board the  
steamer as she lay at the wharf of the  
Brackman and Ker mills, near the outer  
wharf to visit a companion, who is em-  
ployed on the steamer. When he went  
on board he took with him his bicycle,  
which he began riding around the nar-  
row deck. The large hatches were open,  
and as Rideout tried to navigate the  
turns of the four foot passage way  
which runs around the open holds he  
lost his balance and fell head first  
down. The fall was about the distance  
of 12 feet, and the young lad sustained  
a severe fracture of the skull. There  
was no one else on the boat at the time  
except his companion, with whom he  
was playing, and who immediately sent  
for aid. Dr. Hart was summoned, and  
had the injured lad removed in the am-  
bulance to the hospital, where his in-  
juries were attended to. Yesterday  
morning he was seen to be doing very  
well and was removed to his home,  
where he is reported to be progressing  
favorably.

Island Berries Good

WINNIPEG, June 27.—R. H. Scott,  
head of the MacPherson Fruit Co.,  
says that the finest strawberries his  
firm has ever handled are coming  
from Vancouver Island. They are, he  
says, superior in flavor and quality to  
any grown in the United States. "We  
netted growers 75 cents per case  
more than we pay for Washington  
strawberries," he added. "Unfortun-  
ately, owing to limited supply, few of  
these strawberries reach Winnipeg,

## NEWS OF THE CITY

### Inspecting V. & S.

For the purpose of inspecting the V. & S. railway, and more especially the wharf at Sidney, J. Harmon, master carpenter for the Great Northern railway company, with headquarters at Everett, arrived in the city yesterday and made a trip over the line. He expects to be here for several days.

### Pavement Machinery.

A steam roller and a concrete mixer arrived at the V. & S. station yesterday from Buffalo, N. Y., for the Hassam Pavement Co. The machinery is to be used in connection with the laying of permanent roadways in Parliament Square and in any other local contract which that concern may secure.

### Break Camp Tonight.

The Fifth Regiment C. G. A., which has been in camp at Macaulay point for sixteen days will return to the city tonight. The regiment will march in on the completion of the competitive practise of the field battery at Macaulay. Last night No. 1 company held its competitive shooting with the twelve pounder ante torpedo guns of the Esquimalt defences.

### Among Gulf Islands.

The first railway and steamboat excursion from Victoria to Sidney and among the Gulf Islands was held on Sunday. A large crowd made the trip, about fifty tickets being sold at the V. & S. station just before the train's departure. For the past several summers this has been one of the most popular outings within the scope of Victorian and tourists and, from present indications, it is going to be just as well patronized this year.

### Police Force Inspected

Yesterday afternoon the annual inspection of the police force was held at the city hall. The entire department was out in force clothed in the new uniforms. The police commissioners, Mayor Morley, Ald. Bishop and Mr. Leonard Tait, inspected the men and complimented Chief Langley on the appearance of the force. The new uniforms are of the same style as those in use at present with the exception that, hereafter, a red stripe will ornament the trousers instead of a white one.

### Thrown From Auto.

Through the breaking of one of the rear wheels on the automobile a party of tourists had a narrow escape from serious injury yesterday morning at 5 o'clock on Cook street. The accident almost overturned the fast moving machine and the occupants of the car, three women and three men, with the driver, were hurled to the roadway. One of the women sustained several cuts about the face and another was rendered unconscious for a short time. A passer-by who saw the accident telephoned to the police station and the patrol wagon responded. Dr. George Hall was also summoned.

### New Business Block

The permit for the new \$12,000 brick block now in course of erection for the Sweeney & McConnell Company on Langley street immediately south of the offices of the B. C. Electric Company was issued yesterday by the building inspector. The new structure will be three stories in height, and will be occupied by stores on the ground floor and offices above. Messrs. Dinsdale & Malcolm are the contractors. H. S. Griffith prepared the plans. Permits have also been issued to W. C. Van Munster for a dwelling to be erected on Michigan street to cost \$1,950 and to H. Elsmere for a dwelling to cost \$1,000.

### The Police Court

There was much cross-firing in the police court yesterday morning between J. H. Alkman, counsel for Charles Miek, a shoeblack charged with indecency. Mr. Alkman held that accused was deranged, and asked that the charge be not proceeded with. The city prosecutor held that it should go on, and that if accused was deranged the proper place for him was the asylum. Mr. Alkman after remarking that the prosecutor seemed to think that his duty was to throw people into jail went on to say: "There are a lot of us who are not quite sane. There is the city prosecutor, and then again, there is myself." The city prosecutor said he did not dispute Mr. Alkman's remarks as they referred to himself, and after the magistrate had asked the counsel not to make his remarks so personal Mr. Alkman asked for a remand until today to bring witnesses to show that the accused was of unsound mind. The remand was granted. Alexander Owens, who pleaded guilty Saturday to a theft from the Dominion Express Company was sentenced yesterday morning to a year's imprisonment.

### POOR PRESSURE

Firemen Have Difficulty in Getting Water to Fight Victoria West Fire

Fire which started in the bath-room and worked its way into the attic did damage to the amount of about \$200 to the residence occupied by J. H. Lawrie, 708 Powderley avenue, yesterday afternoon at 1:30 o'clock. The roof was badly burned and the interior more or less damaged. The pressure on the water main was so poor that water could not be forced more than a few feet, but the presence of the Victoria West fire engine saved the building, it being possible to get one good engine stream on the flames. Fire Chief Davis after the fire complained to the Esquimalt Water Works Company of the poor pressure.

The fire department, when the alarm came in, was on its way back from responding to a false alarm on Caledonia avenue, where a woman, noticing a large volume of smoke coming from the road roller at work on North Park street, became alarmed and sent in an alarm.

Mr. Watson Clark, of the Oakland Dairy Farm, Victoria, will dispose of the whole of his valuable herd of grade Durham and Holstein milch cows next Thursday, at 10:30 a. m. Mr. Stewart Williams will act as auctioneer, and doubtlessly many buyers will come over from the mainland, in addition to local buyers. As it is very seldom so good a lot of cattle come under the hammer. The only reason for Mr. Clark selling is because he is retiring from business and this herd is the result of years of careful grading.

## THE WEATHER

Meteorological office, Victoria, at 8 p. m., June 27, 1912.

### SYNOPSIS.

The pressure is highest on the coast from California to Cassiar and low areas over the Pacific provinces. Rain has fallen at Port Simpson and Zulu but elsewhere the weather has been fair from the Pacific to the great lakes. It has been moderately warm on the immediate coast but with higher temperatures inland in the Pacific states and very warm in the Canadian provinces east of the Rockies, reaching 96 in Manitoba.

## NEWS OF THE CITY

**Chief Justice Takes Chambers**  
Chief Justice Hunter will take chambers at 3 o'clock today and hear any arguments coming on.

**Appointed Constable.**  
Mr. N. Ewart has been appointed Provincial Constable at Princeton, vice Hewett, promoted to the post of Government Agent, Mining Recorder, etc., at Fairview.

**Examinations In Music.**  
The University of Toronto local examinations in music will be held in Witts music rooms on June 29th. The piano examinations will be conducted by Mr. Forsyth, who will reach the city today.

**Reports on Crop Reporting.**  
Provincial Horticulturist Winslow left yesterday on a tour of Oregon and Washington on his mission being to investigate and report upon the systems of crop reporting prevailing in these neighboring states.

**Deprecates Practice.**  
At a meeting of the Ruridicanal Chapter recently held, it was unanimously resolved: "That this Chapter deprecates the holding of funeral services in any other place but the church." The resolution was communicated to Bishop Perrin, who expressed his entire approval.

**Succeeds Mr. Hodson.**  
Mr. Albert E. Craddock, secretary of the department of agriculture who is now enjoying his summer vacation in Alberta has been appointed to succeed Mr. R. W. Hodson as secretary of the British Columbia Fairs Association, his new appointment taking effect on Friday next.

**Verdict "Death by Accident."**  
Mr. Sutherland, deputy coroner at Revelstoke has reported to the Attorney General that after holding an inquest and investigating all circumstances incidental to the death by an accident on the C.P.R. near Glacier of James Gregor, the jury returned a verdict of accident, absorbing all concerned of any responsibility.

**Entrance Examinations.**  
The midsummer examinations for entrance to the provincial high schools begin today in the twenty vocational centres of British Columbia, and continue through the next three days. Approximately two hundred boys and girls are writing, the largest list of candidates in the history of the province. In Victoria the examination this year is in general charge of Mr. E. H. Russell, B. A.

**Delegation to Meet Premier.**  
A strong delegation of the local board of trade will meet Premier McBride during the present week and urge the withholding of prosecution under the Companies Act which goes into force on July 1st until the meeting of the provincial legislature when amendments can be made. Mercantile interests claim that the act will restrict trade through the fact that it imposes a registration fee of £50 on extra provincial companies.

**Manual Training Exhibit.**  
Parents of boys attending North Ward and Victoria West schools, and all who are interested in the education of the rising generation, should visit the Manual Training room, North Ward school this evening at 7:30 to 9:00 o'clock. Here will be exhibited some of the work done during the year now closing, and parents in particular, should take this opportunity of estimating the quality of their own son's work by comparing it with that of other boys in the same school.

**To Hold Annual Meeting**  
The annual meeting of the Board of Trade will take place on July 8th, when the election of officers will be held and the reports of the president and treasurer will be presented. The meeting promises to be more than usually interesting this year in view of the progress which has taken place in the city and the fact that the efforts of the Board of Trade have been largely responsible for many of the improvements which have been effected.

**Spring Salmon Catch**  
Scow loads of spring salmon are arriving daily at the wharves of the inner harbor, and while the catch in the traps situated at Otter Point is regarded as good as last year, it hardly equals that of two years ago. The fish range as high as sixty pounds in weight, and upon their arrival here are mild cured for the German, New York and British markets. On Sunday a scow load containing close upon thirty tons was received from the traps of Messrs. Todd & Company, while yesterday Messrs. Findlay, Durham & Bradie were in receipt of a scow load of an equal amount. The latter firm is this year carrying out its own mild curing and shipping of the fishery products to the different foreign markets.

**Publicity Campaign**  
The wide ground which the Vancouver Island Development League is covering is shown by the tenor of a single day's correspondence received by that organization. Yesterday and quires were received from different points of Canada from those wishing to engage in fruit farming, from residents of British Columbia anxious to take up ranching land, from Americans who wished to better their climatic surroundings, from Englishmen anxious to find a berth, commercial or otherwise, and from others with capital who are anxious to find profitable investment. In every instance specific and complete information is being furnished from the publicity offices, and indications are that the present year will be a record one in the annals of immigration to the island.

**Columbia Coast Mission**  
The new steamer for this mission is nearly ready to be launched at New Westminster and the dedication will take place in Victoria on a date to be shortly announced. The dedication of the first Columbia will be remembered by many. This steamer is a great improvement upon the first and will be in every way fitted for the enlarged sphere of work which now involves the visiting of camps between Van Arda and Alert Bay. The cost is to be \$20,000, and of this about \$22,000 has been collected in Victoria and there are still several from whom the Bishop hopes to hear. Upon the occasion of the dedication friends will be invited to bring with them useful articles in the way of furnishing the

staterooms, kitchen, etc., and any donation of money for this object will be thankfully received by Mrs. Wolaston, 1732 Oak Bay avenue, treasurer of the Woman's Auxiliary.

**Bylaws for Ratepayers.**  
Among bylaws which will shortly be submitted to the ratepayers will be one to raise the sum of \$50,000 for the purpose of making extensive additions to the isolated hospital. The recommendations of Health Officer Dr. Hall have been approved by the health and morals committee which has reported favorably to the city council. Other bylaws to be submitted at the same time are a sewer bylaw for \$50,000, the bylaw to authorize the transfer to the school board of the site at Spring Ridge for High school purposes, a bylaw to raise \$15,000 for a public convenience and the Dallas road foreshore protection bylaw.

**Will Tear Up New Street.**  
Residents on Cook street have been aroused during the past day or two by the sight of a large quantity of piping which has been deposited along that thoroughfare. Numerous complaints have been made to the city hall, the residents being under the impression that the city is about to tear up the macadam roadway which was laid only last year. As a matter of fact the pipes are the property of the Gas company, which is about to lay a main on Cook street. The company was last year, before the street improvement work was undertaken, notified of the fact that the improvements were about to be made and was requested to lay its main

too, and Miss Norman possesses a charming way and a nice pleasing voice. Thomas J. Price is singing as usual, with the same measure of success and the moving pictures are just what the best firm in this line has to offer, so all round, the acts at the Grand this week are 100 per cent. grade.

**Pantages' Musical Comedy**  
One happy feature about the new musical comedy show at Pantages as presented by the Lewis and Lake company, is that it is perfectly clean as well as classy, and women need not hesitate in attending and are perfectly safe in taking the children. Another feature is the fact of its being superior in every respect to anything heretofore offered at the Pantages. The stage settings are elaborate and combined with a myriad of electric lights assist materially in the many pretty pictures presented during the performance. The chorus was somewhat weak last night owing to the absence of two of the singing girls who missed the train at San Francisco. They are on the road, however, and should arrive today—otherwise the opening of the musical comedy season was a big success, and the crowds attending fully evidenced the fact that musical comedy is very popular in Victoria. "A New York Girl" is the production. It simply bubbles over with wholesome, enjoyable comedy and delightful chorus numbers. The company supporting these popular and very clever players, Mr. Harry Lewis and dainty Marjorie Lake, is a good one and should prove a winning attraction.

DOLL BABIES AT PANTAGES

then. This the company did not do, as the note the macadam must be torn up to permit of the work being done.

## AMUSEMENTS

**At the Victoria**  
At the Victoria Theatre a large number of people witnessed last night one of those wonder motion pictures which have helped to make the name of Canada famous throughout the world during the last two years. The whole world has heard of and recognizes the greatness of the Canadian Pacific Railway, but can man conceive, or even imagine, the grandeur, the rugged simplicity and the magnificence of the scenery between Calgary, one of Canada's greatest western centres, and the beautiful coast of the Pacific. It is in order to give the outside world a more adequate idea of the wealth of country which the C.P.R. penetrates, that Mr. W. H. Harbeck, moving picture photographer to the C.P.R., has expended considerable time, trouble and personal effort, often fraught with many hardships and difficulties, in amassing a series of pictures which for sheer cleverness and excellence have seldom, if ever, been excelled in this or any other country of the world.

**Scenes of Victoria—Parliament, Buildings, Empress Hotel, Prince of Victoria and Charlotte passing in Georgia Bay at twenty-three miles an hour, the inspection of baggage by the customs officers; Vancouver, North Bend, Fraser Canyon, Rodger's Pass, Yoho Valley, Revelstoke and Calgary are included. A real and thrilling runaway at Banff, the famous "Three Sisters" mountains, the Siamese twins tunnels, a fisherman's paradise, great mountain glaciers, glorious cloud effects, Lake Louise, with its splendid hotel.**  
A trip in a C.P.R. train along the banks of the Fraser, plunging through tunnels, sweeping round curves, crossing bridges, giving the spectators the feeling of being actually on the train, are only a few of the hundreds of interesting features of this picture, which omits nothing, yet at the same time forms a combination which will not only cause a "furor" in the moving picture business, but has drawn the most crowded houses ever seen from one end of Canada to the other.

**New Grand Theatre**  
It is an all round strong and laughable bill, that Manager Jamieson has for the Grand patrons this week, but the headliner and the best headliner for several shows, is the Three Gordon Highlanders act, a musical offering of more than considerable merit, and one which every Scottish person in town is sure to hear about and to see and enjoy. The Highlanders appear first of all behind the bagpipes, and after the building has been rid of the weird strains, the musicians get down to more homelike instruments playing on the chimes. This is their crowning success, and is the subject for a certain encore. The act is clean bright, and offers a true musical treat, with mostly Scottish airs played by Scottish people. Yesterday there was a treble encore.

**The Japanese equilibrist, Harry Tsuda,** has an act that demonstrates him a finished performer. Working on chairs high up on a rubber ball placed on a table Tsuda goes through a performance that takes the audience quite by storm, and he leaves the stage amid tremendous applause. Murray K. Hill shows in a song and story act that is now in the way the stories are told. You have doubtless heard others like him, but he is the one original and can keep you laughing most of the time. William Zinelle and Adelaide Boutelle, offer a dainty nothing, under the title of "237 Miles From Broadway." As the old time actor, Zinelle gets off many good lines, his presence and voice helping him. His singing and also that of Miss Boutelle are very good, and several recalls are necessary for the audience.

**James Toney and Antionette Norman** offer many droll diversions in fact Touey is about the drollest looking thing off the ice. He can dance,

**For Shooting at Train**  
POUGHKEEPSIE, N.Y., June 27.—Not less than five nor more than ten years in Sing Sing prison was the sentence dealt out to Jasper Price today by Justice Morschauer in the supreme court because Price had fired a bullet at a New York Central passenger train. "This is a grave offence," said the court, "and the excuse that you were drunk does not go." People riding on trains should be protected against the danger of having bullets shot through their heads. An example must be made in your case to deter others from such a course. Price had pleaded guilty to the charge.

## MILITIA THANKS GENEROUS DONORS

Handsome Array Prizes Contributed by Citizens Made Regimental Sports a Pronounced Success

One of the most important factors in the success of the Fifth Regiment sports, held last Saturday, was the splendid array of prizes that was offered. Seldom before have the citizens displayed such open handed generosity in supporting an athletic affair. They went the limit, so to speak, in assisting the "Tommy" to

make merry. That their kindness was appreciated was evinced strikingly by the large number of entries received for every competition and by the spirited manner in which the good things at stake were fought for.

## AT HALF TIME

Messrs. Schwengers and Cambie, who will be the Victoria club's representatives at the international tennis tournament at Spokane next month, are practicing together as often as time and opportunity afford. Last night they were seen on the Kingston street chander courts. Their object in working on these in preference to the grass is that it is on the latter they will have to compete for the Northwest honors.

"Who's going to win the big fight, Little fellow?" The question was asked yesterday afternoon of the office boy, a bright youth with a piping tenor voice and an inordinate fondness for and knowledge of the modern pugilist. "Johnson, sure," came the reply, sharp and shrill. "I gotta a history of the coon up the corner store and, gee, he's a dandy. It's a cinch the smoke will get Jeffries with that uppercut of his if Jeff does any rushing." So much for the boy. Later the same query was asked of a prominent local athlete. "If you have any money on Johnson, go and put the same amount up with a sucker on Jeffries, you'll save it that way." Now what are you going to do about it?

Victoria's harbor should be pretty

nearly solid with small sailing craft and power boats next Sunday. Few seem to realize just what it means to have the fleets of Vancouver, Bellingham, Everett, Seattle and Tacoma assembled in local waters. It will tax the harbor's accommodation fully. It will keep the Victoria club busy calling for the thousands of yachtsmen who come with the squadrons, while those in immediate charge of the regatta opening on Monday won't have time to take afternoon tea at the Empress. Most of the local motor boats will be out to meet the incoming racers on Sunday afternoon, the finish of the two hundred and thirty mile competition being scheduled to take place then.

It would have been hard to find a happier bunch of young men than that which arrived in the city on Sunday afternoon after having taken from the New Westminster amateurs the last match they have lost to the Island in years. The exuberance of their spirits simply had to find an outlet in some way. So while on shipboard they strung out hands on each others' shoulders and sang as they marched. The most popular air was—"rah, rah, rah V-I-C-T-O-R-I-A." On embarking and joining their waiting an equally enthusiastic fellows, the entire party boarded the car, went to the Gorge, where they plunged in the cooling waters of the Arm.

Victoria leads in the race for the amateur lacrosse championship. Another away-from-home game must be played before the lads will be seen in action here. They have to cross sticks with Vancouver on the latter's grounds. The Terminal City, according to the "Dope," has a more formidable twelve than the Royal City. Wherefore, he heaves the local huskies to continue practice.

## DROWNED OFF VANCOUVER ISLAND

Fisherman Caught by Wave and Is Swept Overboard From the Schooner America.

Caught by a giant wave which boarded the Seattle gasoline schooner America, at midnight June 16, in a storm off Cape Cook, Vancouver Island, Rupert Lipsitt, a halibut fisher, was swept off the vessel into the sea and drowned while his mates, frantic in their efforts, were powerless to render aid.

Lipsitt was single, 36 years old, and was born at Port Mulgrave, Cape Breton Island. He had been with the American since she went into commission several weeks ago. The American made a catch of 25,000 pounds of halibut.

Bellerophon Bound Hither  
The Blue Funnel liner S.S. Bellerophon sailed on June 25th from Yokohama for Victoria and is due here about July 8th. She brings a miscellaneous cargo including 1,100 tons for Victoria and an additional 1,100 tons of water pipe for the Esquimalt Water Works Company to be landed at Esquimalt.

## YOU WOULD BE PROUD OF THIS HOMESITE

In presenting the merits of a new subdivision it is the custom to dwell upon the cheapness of the lots therein. The custom is one we could most truthfully follow in dealing with the Ker addition of Gorge View Park. Good building sites, level and perfectly clear, are to be had there for

**\$250, \$275 and \$300**

The impression, however, that this is the only kind of property in that beautiful subdivision would be very far from accurate.

For example, there is that group of four lots just crowning the slope opposite Gorge Park, where the old farmhouse used to stand. It commands a skyline broken in one direction by Mount Baker and on the other side by the Olympics. On one side it overlooks a stretch of countryside rolling back to Mount Douglas. On the other it looks down on that stretch of water fronting Gorge Park, the favorite pleasure ground of Victoria. On these lots are groves of oak, arbutus and maple, so grouped as to complete the charm of the place.

ISLAND TEAM FOR  
VANCOUVER SHOOT

Dominion Day Clay Pigeon Competitions at Terminal City Will Attract Strong Victoria Contingent

Arrangements have been made for the annual trap shooting competition of Dominion Day under the auspices of the Vancouver club. The programme opens at 9 o'clock in the forenoon and continues throughout the day. As a rule a strong team from Victoria is entered and, while there has been no definite decision as yet, it is fully expected that a contingent of island enthusiasts will participate. It is understood that a meeting of members of the Victoria and Capital clubs will be held today to consider the matter.

Appended is a complete list of the events:

1-10 birds entrance \$1, added money \$10.

2-15 birds, entrance \$1.50, added money \$10.

3-20 birds, entrance \$2, added money \$10.

4-50 birds, provincial championship, entrance \$2; winner will receive gold medal; open only to B. C. shooters.

5-16 birds, entrance \$1.50, added money \$10.

6-20 birds, entrance \$2, added money \$10.

7-25 birds, three-men team shoot, entrance \$2 per man, added money \$20.

8-10 birds, entrance \$1, added money \$10.

9-15 birds, entrance \$1.50, added money \$10.

10-20 birds, entrance \$2, added money \$10.

Entrance money will be divided by the jack rabbit system, i.e.: For every bird broken 10 cents will be paid; 10 cents each for every bird missed, together with the added money, will be divided by the Rose system.

With the exceptions of events 4 and 7, three cents a bird extra will be charged for entry. In event 4 there will be a medal presented to the winner emblematic of the high honors of the province. In event 7 money will be divided 40, 30, 20, 10.

Manufacturers' agents will shoot for birds only.

## CHEMINUS TRIMS

## NANAIMO'S TEAM

Chemainus, whose baseball team the

Beacon Hill nine of this city propose scalping at an early date, may prove rather a harder nut to crack and digest than the locals fancy. In a match with Nanaimo's fast outfit on Sunday afternoon, the Lumber City emerged from the nine innings argument with flying colors. They trimmed the visitors 6-4. The game must have been of a gilt-edged nature, for the winners only secured eight hits, while the Coal City ball tossers held out to six. Errors. It is true, show up stronger than is common among leaguers, five going one way and four the other, but after all the best make that many not infrequently. The batteries were: Nanaimo, Turner and Purdy; Chemainus, George and Dawson.

LADYSMITH SHOOT  
ON DOMINION DAY

It is probable that some Victoria marksmen will abandon the Vancouver marksmen will take place on the same day at Ladysmith. The programme, which has been forwarded to the Colonist, is attractive. It is appended:

First event—10 Singles: 1st prize, \$8; 2nd, \$6; 3rd, \$5; 4th, \$4; 5th, \$3.

Second event—10 Singles: 1st prize, \$8; 2nd, \$6; 3rd, \$5; 4th, \$4; 5th, \$3.

Third event—Team shoot of 6 men, 15 Singles. If more than three teams complete, second prize given: 1st prize, \$30; 2nd, \$12.

Fourth event—10 Singles: 1st prize, \$8; 2nd, \$6; 3rd, \$5; 4th, \$4; 5th, \$3.

Fifth event—10 Singles: 1st prize, \$8; 2nd, \$6; 3rd, \$5; 4th, \$4; 5th, \$3.

Sixth event—10 Singles: 1st prize, \$8; 2nd, \$6; 3rd, \$5; 4th, \$4; 5th, \$3.

Grand average, \$5 cash.

CLOVERDALE TO  
MEET THE V. W. A. A.

At the Royal Athletic Park tomorrow evening the Cloverdale and Victoria West lacrosse teams will take the field in a local league match. Since the West were successful in holding down the Wards enthusiasts are anxious to see them matched with the suburbanites.

Meanwhile the Wards are in training for their next game. They will practice tonight and will get in as much drill as possible before the next engagement.

Bellingham is the next team that the Victoria baseball club will be called upon to face. Arrangements have been made for a double-header this weekend, one game taking place on Friday and another on Saturday. Many of the fans are anxious to see Surplus in the box for the last game. That, however, is a matter up to the management. If it is found that "Bob" Peden and Steenson are hitting up to their old pace again, they will not give place to the man who got Ballard's goat.

Duel Between Lenfesty and Futcher for the Peden Cup In First of Season's Pigeon Shoot

In the first of the season's competitions at the Langford Plains' traps on the afternoon of the 26th inst the clay pigeon artists had some splendid sport. The events were conducted by the Victoria club. There were two of outstanding importance, namely, the Weller and Peden cup shoots. Other matches were brought off, in all some three thousand birds being trapped.

The most exciting of the competitions was that for which the Weller

trophy was the stake. Forty was the possible and it was a distance handicap. At the first Lenfesty (20 yards) and Futcher (16 yards) each had scored 29. In shooting off the tie, in which the possible was 20, both finished with 15 to their credit. They tried again and this time each killed 15. Once more they entered into the same argument, still shooting so evenly that it was thought that a fifth shoot-off would have to be declared. However, Futcher managed to score one more than his opponent and took the silver. The tally was 16-15.

In the Peden cup, possible 30 birds, Otto Weller won handily with 29—the best shooting of the afternoon. Lenfesty was second with 26 and Bechtel third with 24.

"Bobby" Powell, formerly of Victoria, and a tennis player of distinction, having only been beaten by Wright in the All-England championship tournament, is expected here about the 1st of September. There are many who are anxious to see Powell on the courts to note the improvement which his experience with British stars must have wrought. The suggestion has been made that, on his return, an exhibition be arranged between Schwengers, the local champion, and Powell.

MISS HOTCHKISS  
STILL CHAMPION

Californian Tennis Expert Easily Defeated Miss Hammond New York, Retaining United States Title

PHILADELPHIA Pa. June 27—Miss Hazel Hotchkiss, of Berkeley, California, this afternoon successfully defended her title as woman lawn tennis champion of the United States by defeating Miss Louise Hammond, of New York, in straight sets 6-4, 6-2. In the Woman Doubles Championship Miss Hotchkiss and Miss Edith Roth, Boston, beat Miss Browning, New York and Miss Wilder, N. J. 6-4, 6-4. With J. E. Carpenter, Jr., Philadelphia Miss Hotchkiss also captured the mixed doubles championship.

The engagement book of the average sportsman should be well-filled these days. On Friday there is the grand opening of the Victoria Tennis Club's grounds and all next week, or practically so, the yachts and yachtsmen will have the city's freedom.

MAINLAND CREWS  
FOR THE N.P.A.A.O.

Vancouver Oarsmen Will Take Up Quarters on Course of International Races for Training Purposes

VANCOUVER, June 27.—Next Thursday evening, the crews which are to compete in the N. P. A. A. O. regatta, which is to be held this year at Indian river, will move up the inlet and take up their quarters at the Wigwam, the new hotel erected by the Indian park company. The regatta is to be held on July 8 and 9, but it was thought by moving up beforehand the oarsmen could become well acquainted with each other and with the course.

An additional inducement is found in the fine quarters provided at the Wigwam, which with the beautiful course staked out at the head of the North Arm, should make the training a very pleasant time. An additional attraction for spectators will be afforded by the canoe races which have been added to the programme for Saturday afternoon. During the regatta special excursion boats will be put on the run. The regatta will close on Saturday, June 10, with a banquet at Indian river.

It is expected that in addition to the local men, crews from Portland and Victoria will take part in the regatta. Vancouver's senior four will be "Beach" Gale, three; "Nellis" Stacey, two, and Norman Sowers, one. Should the Vancouver team win this year they will become the permanent possessors of the Buchanan cup, having already won it two years in succession.

One of the junior crews is composed of George Wright, stroke; Archie Brock, three; Dick Bennett, two, and Jim Simpson, bow. The second crew is stroked by "Blanche" McGeehan, who acted as manager of the Vancouver Rugby team on its last Californian trip, and was formerly an oarsman in Winnipeg. The other members of the crew are Kemp and Ralph Markham, with Larry Townley in the bow.

Among other oarsmen who will take part are Harold Sinclair, who is coming down for Prince Rupert specially for the regatta, while George Chaffey and A. E. Tennant will row senior doubles. Fred Godfrey will again try his luck in the junior singles, and Pete Bell-Irving and Owen Savers will row in the junior doubles.

LEADING BATTERIES OF  
NORTHWEST LEAGUE

Charlie Swain, the big outfielder of the Vancouver club, is still leading the Northwestern league hitters, finishing up last night with an average of .293. Only fifteen men are hitting .250 and better, but some of the others are coming fast. Mike Lynch has fallen away off in his hitting, three or four other players having passed him during the past week.

The averages of those hitting above .250, compiled up to last night, follow:

	A.B.	H.	Ave.
Swain, Van. ....	208	61	.293

A very interesting race is developing in the National Lacrosse league. Toronto and the Nationals (French-Canadian outfit) are now tie for the lead with three games won and none lost. Montreal, the twelve which comes West to meet New Westminster, is second, with three victories and one loss against them. On Friday, Dominion day, there is a big match in Toronto between the Nationals and the Torontos, the two leaders.

This latter, without question, is the contest that will be most closely watched by the lacrosse fans from one end of the Dominion to the other. Generally, it is figured that Toronto will prove victorious. If they do, the championship for the present season will be, to all intents and purposes in their hands. Thus the game will decide whether Toronto, should New Westminster turn down Montreal, will come West in the fall in quest of the Minto cup.

"It cured me," or "It saved the life of my child," are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over, where this valuable remedy has been introduced. No other medicine in use for diarrhoea or howl complaints has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by all druggists.

A Man in the  
Type "G" Class

In our book showing "What Men Wear" we show styles designed especially for Tall Men who weigh from 180 to 240 pounds.

Studying the physiology of Mankind developed certain facts and factors, and the wholesale tailoring system known as "Semi-ready" was developed to its present perfect form.

Every size and type of man is provided for,—and every coat is made to fit a certain man just as though he had taken his coat off to be measured.

Semi-ready  
Tailoring

Both of these styles in the four-button Business Sack are made up in the famous Blunoz Serge Suitings at \$22.

The Semi-ready Company have never produced anything better in their line of fabrics at this value, and it is known that their sale of Blunoz Suits, in both black and navy blue, is larger than that of any of the cloth patterns they import.

It was in Kilmarnock (June 27, 1830) that Rev. Mr. Reid was reared and received his early training and preparatory education in the schools of that

town, prior to going to Glasgow, where he was trained for the ministry under the learned Principal Morrison and Prof. John Guthrie, D. D., of the E. U. Theological College, Glasgow. He was ordained in 1849 at Cambuslang, and ministered in the Congregational church there, the father of Dr. David Livingstone being worshipper in the congregation.

From Cambuslang he went to Avon Bridge, where he remained over two years. From there he was called to Jedburgh, where he stayed some two years, where he was specially blessed in evangelistic efforts. While he was at Jedburgh a call was received to Dunbarton. Thence he was called to Cathrine, Ayrshire, his native county, where he spent five very successful years. In 1860 he received a call to the Troathack Congregational church, Winterton, built by the saintly R. M. Somerville.

During his ministry there, he was brought into touch with the brightest minds of both Europe and America, the Lake District of England being a favorite resort for professional men seeking rest and recreation. Among some of his warm friends at this time may be mentioned, Drs. Guthrie, Edinburgh; Binney, London; Parker, London; Raffles, Liverpool; Martin, London; Spurgeon, London; Sir Francis Crossley, M. P., Halifax; and the noble-hearted Wm. Carmichael, Bishop of Manchester.

In 1867 he received a unanimous call to the Manchester road Congregational Church, of Burnley, Lancashire, at which place he was 12 years in all, when falling health necessitated his resignation, and at the suggestion of his friends he accepted of a call to Victoria, commencing his ministry in reorganizing the First Presbyterian Church, Victoria, where he remained for nearly six years.

In 1880 he spent six months in San Francisco, supplying the First Congregational church on leave of absence, and assisting at Moody's meetings, etc.

In 1881 he returned to England to his former charge in Burnley for over four years. On his return to British Columbia he became assistant to Bishop of the Reformed Episcopal Church in Victoria and New Westminster. He is now retired.

## PASTOR RECEIVES CONGRATULATIONS

Rev. John Reid, Pioneer Victoria Clergyman, Celebrated Eightieth Birthday and Acknowledges Good Wishes

Rev. John Reid, sr., for many years a resident of Victoria, in fact, one of the city's earliest pioneers, celebrated his eightieth birthday yesterday. His many friends, many of whom had learned of the occasion, called and submitted their heartiest congratulations. During his active ministry in Victoria, and since he has retired, the Rev. Mr. Reid has popularized himself by the prominent part he has taken in philanthropic and charitable works, but perhaps even more than in this way his influence has been felt in his kindly and unobtrusive labor for the betterment of his fellow men. Thus, among his wide circle of acquaintances, as well as by his nearer friends, the venerable gentleman is beloved, and all united in extending him sincere and heartfelt wishes.

It was in Kilmarnock (June 27, 1830) that Rev. Mr. Reid was reared and received his early training and preparatory education in the schools of that

town, prior to going to Glasgow, where he was trained for the ministry under the learned Principal Morrison and Prof. John Guthrie, D. D., of the E. U. Theological College, Glasgow. John William Butler, Sr., took place yesterday afternoon from the family residence, Fairfield road, at 2:30, where an impressive service was conducted by the Rev. T. E. Holling. The favorite hymn, "Jesus Lover of My Soul," was sung. There was a large attendance of friends and the following acted as pallbearers: E. A. Lewis, T. H. Horne, E. A. Brown, Captain J. Barry, A. MacMillan, J. Ridout.

#### Tinker

The remains of the late Mrs. Tinker were laid to rest yesterday afternoon in Ross Bay cemetery. Services were conducted at the Hanna parlors by Rev. E. G. Miller, who also officiated at the graveside.

#### Roger

At the Royal Jubilee Hospital on Sunday afternoon the death occurred of Miss Edie Pilmer Roger, the 13-year-old daughter of Mr. and Mrs. James Roger, of Admiral's Road. Deceased was a native of Scotland, and came to this city about two years ago. During this time she has been attending the public schools of this city, and she was taken ill with pneumonia about two weeks ago, which culminated in her death. The funeral will take place this afternoon from the parlors of the Victoria Undertaking Company, at 3 o'clock. Rev. J. P. Hicks will conduct the services both at the parlors and at the graveside.

#### Bechtel

The sad news reached the city yesterday of the death of Mrs. Rachael Bechtel, the wife of Andrew John Bechtel, who for some time was manager of the Victoria Machinery Depot. The death occurred on Tuesday last at Beaumont, California, whither the deceased lady had journeyed about four years ago in search of health. The change of climate only served to prolong her life for a short time. When the news reached Mr. Bechtel, he was in Nova Scotia on a business trip on matters connected with the Victoria Sealing Company, with which he is now a director. He left immediately for this city and will arrive tonight.

The late Mrs. Bechtel came to this city about 40 years ago, and was married to Mr. Bechtel a few years later. She was a native of Australia and was 47 years of age. She was favorably known to many in the city, being always popular with all with whom she was connected. The remains will reach this city today, and funeral arrangements will be announced on the arrival of Mr. Bechtel today.

The other members of the family are all at present in the city. They are Dr. A. D. Bechtel, A. E. Bechtel, Mrs. (Dr.) Lennox of Toronto, and Mrs. Steubign, Arizona.

## Marron Lake Ranch Estate

In the Beautiful Okanagan

This estate consists of 480 acres partly laid out in pasturage, partly under cultivation for wheat, oats, etc., and includes Marron Lake (5 acres). The land in and around consists of the choicest bottom and bench lands, the soil varying little, and is very productive for all kinds of fruit, produce, etc. From a sportsman's point of view it is the only plentiful deer valley around. The residence contains six rooms and overlooks the lake. There is also a two-roomed cottage on the bench land, and barns for horses, cattle, etc. The whole, including cattle, sheep, pigs, fowls, farm machinery, tools, etc., can be had on valuation. Another 160 acres can be had, if required, the whole being splendidly adapted for fruit acreage and can be sub-divided accordingly.

PENTICTON

For immediate disposal, ten most valuable lots in Penticton in centre of town, size 33½ x 120 feet. One lot contains small cottage overlooking Okanagan Lake. Cash price, \$4,800. Apply in first instance to

## COMMERCIAL AND FINANCIAL

## WHEAT PRICES GO TO HIGHER LEVEL

More Heat With Lack of Need-  
ed Rains and Consequent  
Damage to Crops the Price  
Factors

CHICAGO, June 27.—There was tremendous buying of wheat before the close today when the highest prices on the present bull campaign were established. This advance was right in line with the fresh alarm shown in the northwest trade, because of a return of

high temperatures without the needed general rains. The local trade watched the Winnipeg October price advance to 96 1/2 cents in late trades and the September price at Minneapolis marked up to 1.06 1/4 at the same time. These prices told the story of how the leaders in the northwest markets felt about the crop outlook. The Chicago experts who are in the spring wheat country keep sending most bullish messages but the trade here seemed inclined to hang back and work for reactions from each little swell. There was a change of front at the last and prices went up very quickly to the high point with excited buying by some of the largest interests in the trade. Reports of a liberal run of new wheat to Kansas City and offerings of Illinois wheat to this market for July shipment encouraged the bears to work for a setback. Any widespread rains for the northwest states will mean complete change of feeling but without that the bull campaign is likely to continue as no one can state what the possible damage to the crop will be.

## Adoption of Higher Pressures and Alternating Current

The introduction of 500-volt motors underground, however, had some disadvantages. These motors sparked considerably when they had to carry severe overloads. Shocks which at 100 volts were rarely dangerous, at 500 volts became deadly in the humid condition of the air and skin. Lastly, the arc at the break of a cable at the higher voltage was more prolonged and its lighting power greater. These dangers, although they have been lessened, have still to be conquered. For sparking alone, the introduction of three-phase motors is an undoubted gain. They are not so readily controlled in speed as continuous-current motors, and they require almost as
